Outcome of UNIPASS System Simulation Exercise

Held on 16th - 17th May 2020

No	Activity		Scenario Outcome	Remark
1.	Download Master Manifest		GPHA successfully downloaded manifest from the UNIPASS platform	Pass
2.	Download Slot/Co-loader Manifest		There was no Slot/Co-loader Manifest on the UNIPASS platform for the simulation exercise	Information not available for testing
3.	Download Additional/Supplementary Manifest		There was no Additional/Supplementary Manifest on the UNIPASS platform for the simulation exercise	Information not available for testing
4.	Download Amendment Manifest • Amendment by Separation • Amendment by Correction		There was no Amendment Manifest on the UNIPASS platform for the simulation exercise	Information not available for testing
5.	Confirm Delivery place of containers on discharge list		GPHA successfully confirmed delivery places of cargoes/containers on Discharge Lists on the UNIPASS platform	Pass
6.	Download confirmed discharge list for vessel operations		GPHA successfully downloaded approved Discharge Lists. However, there were key fields such Regime, Notifying Party, Reefer Indicator missing in the document	• Approved discharge list download: **Passed** • Key fields: **Failed**
7.	Upload landed and loaded Tallies from voyage operations		GPHA was unable to upload the tally reports for the Manifest. This is because the Shipping Lines submitted the manifest to non-GPHA terminal. As a result, GPHA could not access the manifest information to upload its corresponding tally report. Ghana Link and GRA Customs could not help to resolve this issue during the simulation period.	Fail

No	Activity		Scenario Outcome	Remark
8.	Download: • Final Release Delivery Order for FCL consignment • 1st and final Release Delivery Order for FCL consignment for the purposes of documentation Download: • Final Release Delivery Order for FCL consignment • 1st and final Release DO for FCL consignment for the purposes of documentation		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
9.	Download: • Final Release Delivery Order for LCL consignment • 1st Release Delivery Order for LCL consolidated consignment.		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
10.	Download Final Release Delivery Order for CFS consignments from the same container and Master BL		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
11.	Download 1st Release Delivery Order for consignment through Scan		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
12.	Download Renewal of Delivery Order expiry date for 1st Release and Final Release Delivery Order		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges

No	Activity		Scenario Outcome	Remark
13.	Be able to change Release instruction from Unstuffing to House-to-House		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
14.	Obtain CUSTOMS approval for 1st Release Delivery Order		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
15.	Cancellation of 1st or Final Release Delivery Order		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
16.	Receive request for service from Clearing Agents		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
17.	Update clearing agents with invoice		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
18.	Schedule BLs for Joint inspection process		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
19.	Receive CUSTOMS Delivery Allowed Message		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges

No	Activity		Scenario Outcome	Remark
20.	Create, approve or cancel Cargo Movement Request		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
21.	Confirm receipt or exit of cargo in/from a delivery location		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
22.	Confirm if the appropriate Duties have been paid on consignments before Gate-out		GPHA could not get to this stage to test the scenario as the dependent processes could not be successfully achieved	Could not test this scenario due to system challenges
